jinming.cao.2025@mitb.smu.edu.sg | (+65) 89570699 | linkedin.com/in/jinming-ca0-4514aa1ba

EDUCATION

Singapore Management University | Singapore

Aug 2025 - Dec 2026

Master of IT in Business (Financial Technology & Analytics) | Major in Financial Technology & Analytics

Singapore Management University | Singapore

Aug 2022 - Dec 2025

Bachelor of Science | Major in Financial Technology, Second Major in Cybersecurity

- Additional academic exposure in Machine Learning and Blockchain Technology.

EXPERIENCE

MaFe Bento | Singapore

Sep 2025 - May 2026

Full Stack Web Developer

- Partnered with restaurant owners and kitchen staff to map order-to-preparation workflows and translate them into functional requirements, user flows, and acceptance criteria.
- Led end-to-end development of an online ordering platform, covering requirement gathering, architecture design, implementation, deployment, and post-launch feature iteration.
- Authored technical and functional design documents for a proposed supply chain management system, including inventory logic, supplier data flows, and scalability considerations.

SBS Transit Ltd | Singapore

May 2024 - Aug 2024

Cybersecurity Intern

- Revamped internal cybersecurity training modules to align with current policies and improve the employee learning experience.
- Coordinated an internal phishing campaign with cybersecurity team members and external vendors to support smooth setup, testing, and execution.
- Identified potential security gaps during internal auditing and helped reduce the risk of confidential document exposure.

PROJECTS

Loan Ranger

- Proposed a design-thinking and analytics-driven solution to improve the vehicle loan process across application, issuance, and maintenance stages.
- Focused on improving the customer and dealer experience while addressing process efficiency for financial institutions.

LEADERSHIP & ACTIVITIES

- **Project Caritas IX** — Logistics Head (Feb 2024 - Dec 2025): Designed and implemented tracking systems to streamline purchasing, transit, and inventory management while improving record accuracy and logistical coordination.
- **SMU Ellipsis Coders Assembly** — Mentor (Aug 2023 - Aug 2024): Mentored juniors in web application development and introductory programming through supplementary sessions focused on concept clarification and debugging support.
